

Job Description – Consultant

About Movement Strategies

Movement Strategies is the UK's leading consultancy specialising in people movement, crowd dynamics and safety. Working in Sports, Events, Transport and Leisure sectors, our clients include the London Organising Committee for the Olympic Games, Wembley Stadium, the Glastonbury Festival, Network Rail, the Ministry of Sound, and many more. With an annual growth of over 20% per year since operations began in 2005, we are now looking to expand the team. There is a vacancy for a Consultant working out of the Head Office in London.

Please explore our website www.movementstrategies.com for more information about the company, and to access case studies of our recent projects.

The Opportunity

As a Consultant, the successful candidate would take an active role in the delivery of wide-range of projects in the UK and abroad. As well as the more analytical aspects of the job, we would expect the Consultant to spend time visiting clients and, where appropriate, working at clients' offices as part of their delivery team. This is likely to involve travel; therefore language skills would be beneficial. Currently, we are particularly keen to hear from those who are able to speak Portuguese, Mandarin, Arabic or Russian.

The role is full-time, and would be based at our Head Office in Central London. The start date is as soon as possible, depending upon availability.

Salary is negotiable, dependent on qualifications, skills and experience.

If you are interested in applying for this position, please send your CV and Cover Letter to info@movementstrategies.com with the subject: 'Application for Consultant.'

If you have any further questions, please contact us on 020 7884 9156.
